

Spawning.SpawnFromPrefab

Spawning.SpawnLatticeStructure
FromJson

References.SortAndAddToObjectList

```
graph LR; A[Spawning.SpawnFromPrefab] --> C[References.SortAndAddToObjectList]; B[Spawning.SpawnLatticeStructure FromJson] --> C; C --> C;
```

The diagram illustrates a flow of control or data. Two source boxes on the left, 'Spawning.SpawnFromPrefab' and 'Spawning.SpawnLatticeStructure FromJson', both have arrows pointing to a single target box on the right, 'References.SortAndAddToObjectList'. The target box is shaded gray and also features a curved arrow pointing back to itself, indicating a self-loop or recursive call.
